SHOCKFORCE™ G2 AND SHOCKFORCE™ G2 NITE EYE

New Shockforce G2 and Shockforce G2 Nite Eye tapes have wider, thicker blades for 5 metres* reach and a new blade barrier coating for 3X the blade life, but there's more: They have a bolstered case and fastening points, plus dual steel guardrails on both sides of the lock button – all for superior impact protection. They've been 36 metres drop tested for extreme durability. That means they're not just the best performing tapes we've ever made ... they're also the toughest.
